---

**Technical Skills:**

Front-end
- HTML, CSS, Javascript, Typescript, React, React Router v5, React Router v6, Angular, Sass, Bootstrap, Styled Components, Node JS, Redux, Next JS

Back-end
- MongoDB, Express, Firebase

Methodologies
- Object Oriented Programming(OOP), Rest API

Other Technologies
- Figma, Git, Github

---

**Projects:**

API Store
- React Shopping App
- Technologies Used:
  - HTML, CSS, Javascript, React, React-Router, Bootstrap
- Details
  - Using the Fake Store API I simulated an e-commerce website.
  - Users can display the full list of products or by category.
  - Users can click on a specific item to see more details about that item.
  - Users can add that item to the shopping cart and either continue shopping or go to the shopping cart.
  - Users can add information about shipping and credit card payments but is not connected to a payment system.

War Card Game
- Card Game App
- Technologies Used:
  - HTML, CSS, Javascript, React, Styled Components
- Details
  - Using the Deck of Cards API I created the classic war card game.
  - Users can choose a name or keep "Player 1".
  - Once the player or the computer has all the cards game is over.
  - Users can also start a new game at any time.

**Experience:**

Alphaworks – Apprentice (2022 – present)
- Duties:
  - Get a deeper understanding of React JS
  - Work on various projects given by lead
  - Work on projects given by Alphaworks from clients
  - Mentor another apprentice from another apprenticeship
